

Lake County Sheriff Office received a complaint from a reporting person that they wanted a welfare check on the dogs at a residence on Dublin gulch road. The deputy's Bleazard and Shoemaker were told by the complaint that there was a terrible smell coming from the kennel and that they had seen one dog with its hair matted and smelled like urine and the dog did not look in good health. Deputy Bleazard looked over several prior calls to the LDR kennel and in the past the owners of the kennels would not let the officers check the dogs . Deputy's talked to two more complaints and with the history and the complaints they went and applied for a search warrant and was given one to check on the dogs. Lake county Deputy's served the warrant at about 0753 am this date 7-26-2016 and the vet and their assistant checked on over 120 dogs out of this number there was 11 that were seized and taken to get medical treatment and assessed for treatment. The owners of the kennel were cited for cruelty to animals. The remaining dogs were left in the care of the kennel pending the County attorneys review of the case.
